

THE COMPUTER WORKSHOP GROUP NEWSLETTER

June 2022

WINTER HAS ARRIVED

Chris Bugeja
Owner / Director

As we approach the end of the financial year, it is important to stop and reflect on how lucky we are to have such an incredible client base. We understand first hand that none of this would be possible without you all.

With some of our most loyal clients who have been with us for many years, we thank you for your continuous support and referrals.

Here at The Computer Workshop Group we truly love what we do, and it is this passion that drives us to expand, and offer even more services to "Make IT Happen" for you!

May was another month full of changes and milestones. Our Cloncurry shop is closer and closer to completion, and our cabling team completed one of their biggest installs to date.

Once again, thank you to each of you. Let's finish the financial year strong!

Inside this issue:

- WELCOME BACK JENS
- RICHMOND RACECOURSE
- SERVICES WE PROVIDE
- NEW WHEELS
- WIN TICKETS
- PARTNERING FOR SUCCESS

Jens has returned to the fold having first started with us in October 2020. He thought he'd give working in the mines a go but missed the stimulating environment of The Computer Workshop tech bay.

His eagerness to pull things apart and put them back together again made him to perfect candidate for Tech Bay Supervisor.

Essentially, he had no formal qualifications prior to working with us but he is an avid "tinkerer" like all the other techs here which sits in good stead with us.

His technical skills level has grown exponentially since starting with us. Eight years of retail experience has helped him deal with the diverse clientele who call on us for help.

He has made himself a
vital part of our team.

Welcome Back
• JENS KAPPES-LOWRY •

RICHMOND

Racecourse

Wow what a big job. This past month our team were tasked with enhancing the Richmond Racecourse audio and Wi-Fi. From day 1 they were digging trenches to repair damaged conduit, and preparing for the days ahead of fitting over 2 kilometres worth of copper cable.

The deadline was set to ensure this undertaking was completed before the next event, and our team absolutely delivered.

Now Richmond Racecourse have an incredible sound system streaming through the bar area, all the way out to the holding pens.

Such a great opportunity for our team, and thank you so much to Richmond Racecourse with entrusting us with this undertaking.

Adrian Warhurst
Security Advisor

STRAIGHT FROM THE HORSES MOUTH... TESTIMONIAL

Thanks again for making it out and installing in such a quick turnaround. That PA was worth every dollar! Everyone over Field Days - particularly our MC - absolutely loved it.

Huge huge huge improvement to what was there.

Just outstanding sound quality and under the bar is just what we've been missing. PA and wi-fi install just made things so much easier to run the whole weekend - gave it a real test run with music on Saturday because our band bailed out Friday morning so thanked our lucky stars we pushed this to get done in time.

If you check out our live feeds of just how well it worked on our Facebook page @RichmondFieldDaysandRaces
